We could conduct many competitions, activities, projects and trainings on different topics. We could also follow the CBSE way of evaluation right from grade 1 to grade 10. Learning was joyful and activity based.

Our teachers conduct seminars on environmental issues as a result students and teachers reduced the consumption of electricity and water and motivated self to protect the environment. They also started avoiding the usage of plastics.

During the online classes students enjoyed their sports competitions yoga and different trainings. One of our students got selected for Bhavnagar rural team under 16 categories.

For making the online classes more effective and joyful teachers and students found some applications for competitions, quizzes and coding. During the online classes students were very active and concentrated in learning and achieved better results.

We have conducted 3 PTA meetings online in the year 2020-21 and took the feedback of online classes and discussed how to improve the standard of online classes. PTA was very supportive so that learning and teaching was very effective.
